

Proactive Gas Safety Ltd Environmental Policy

Proactive Gas Safety Ltd is committed to minimising the impact of its activities on the environment and will strive to ensure that every aspect of its business is conducted in accordance with sound environmental practices.

We will reach this by:

- Consuming material goods in moderation using recyclable products where possible
- Consuming energy and fuels in the most efficient manner possible and reviewing this usage frequently in order to minimise consumption at every opportunity
- Managing our business operations to prevent pollution.
- Ensuring all waste is disposed of in a safe and responsible manner.
- Encouraging appropriate consideration of environmental issues in the professional services we provide to our clients.
- Encouraging the adoption of similar principles by our suppliers.
- Raising awareness of environmental issues amongst our staff and enlist their support in improving the Company's performance.
- Complying with environmental legislation.
- Having a minimal use of single use plastics.
- Reviewing our environmental policy regularly.

This statement reflects the commitment of Proactive Gas Safety to minimising the environmental impact of its operations.
